Chief Burkush,

I would like to thank you and the firemen who worked so diligently this weekend in controlling the water flow of Ray Brook. I am very grateful for your around the clock efforts to ensure safety for the residents who live near Goldfish and Dorrs Pond.

When things quiet down, I'd like to get your feedback regarding what worked/didn't work in this process.

Thanks again. Joyce Craig

To Manchester Fire Department Engine 5:

On the morning of December 26, 2009 at approximately 7 a.m., my wife called 911 requesting an ambulance due to the fact that I was having chest pains.

Engine 5 was the first to arrive. I was greeted by three firemen. They immediately began assessing the situation by asking me where I was experiencing the pain I was feeling. I explained that I had pain in my chest and pain traveling down my left shoulder.

Since they believed I was having a heart attack, they immediately administered nitroglycerin, oxygen, and gave me a St. Joseph's baby aspirin to help manage the heart attack.

The doctors at Catholic Medical Center said that because of the quick treatment I received, there was minimal damage done to my heart. The doctors praised the Manchester Fire Department Engine 5 for their quick response time in coming to my rescue.

At this time I would like to thank Engine 5 for a job well done.

Thank you from the bottom of my heart!

Sincerely,

Robert R. Dumas
